# GreenCircle Certified UI Design Guide

Visual and interactive standards for the GreenCircle Certified Database web platform

## 1. Typography

### Font Family

**Primary Font:** Century Gothic, AppleGothic, sans-serif

### Font Sizes & Weights

**Page Title - 20px, Weight 700**

```
font-size: 20px; font-weight: 700;
```

Header Text - 18px, Weight 500

```
font-size: 18px; font-weight: 500;
```

Body Text - 14px, Weight 400

```
font-size: 14px; font-weight: 400;
```

Caption/Helper Text - 12px, Weight 400

```
font-size: 12px; font-weight: 400;
```

## 2. Color System

### Core Palette

| Primary | Secondary | Primary | Dark | Background |
|---|---|---|---|---|
| **Green Primary** | **Green Secondary** | **Blue Primary** | **Blue Dark** | **Light Gray** |
| #92C83E | #447638 | #00AEEF | #002B76 | #f9f9f9 |

| Error | Warning | Tag External | Tag Internal | Border |
|---|---|---|---|---|
| **Error** | **Warning** | **Tag** | **Tag** | **Border Color** |
| #ff5252 | #FFE9A3 | #92C83E | #00AEEF | #eaeaea |

## Color Usage Guidelines

### Primary Actions

Use for primary buttons, active navigation links, and focus states

- Blue Primary (#00AEEF)

### Success Actions

Use for success buttons, add actions, and positive feedback

- Green Primary (#92C83E)

### Error States

Use for error messages, delete actions

- Error Red (#ff5252)

### Warning States

Use for warning messages

- Warning Yellow(#FFE9A3)

**Text & Headers**

Use for page titles and important headings

- Blue Dark (#002B76)

## 3. Layout & Spacing

### Grid System

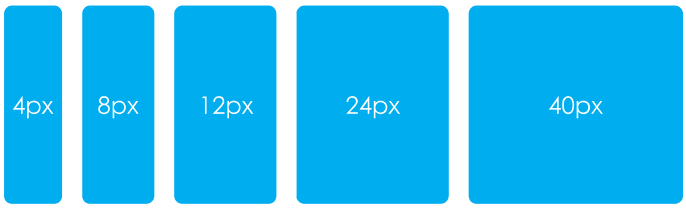

```
/* Maximum content width */
max-width: 1400px;

/* Content padding */
padding: 30-40px desktop, 15-24px mobile;

/* Border radius */
border-radius: 6px (buttons), 8-12px (cards/containers);

/* Shadow */
box-shadow: 0 4px 12px rgba(0, 0, 0, 0.08);
```

### Spacing Units

### Tablet View Guidelines

```
@media (max-width: 768px) {
.guide-container {
padding: 20px 15px;
}

.guide-header {
margin: -20px -15px 30px -15px;
padding: 30px 20px;
}

.section {
padding: 20px 15px;
}

.grid-2, .grid-3, .grid-4 {
grid-template-columns: repeat(auto-fit, minmax(200px, 1fr));
}

.stat-card {
flex-direction: column;
text-align: center;
gap: 10px;
}

.step-header {
flex-wrap: wrap;
gap: 10px;
}

.modal-content {
margin: 20px;
max-width: calc(100% - 40px);
}
}
```

### Tablet Preview (≤ 768px)

This layout stacks side-by-side content vertically and reduces paddings. Grid items adjust to fit 200px+ widths.

Block A

Block B

## Mobile View Guidelines

```
@media (max-width: 576px) {
.guide-header h1 {
font-size: 24px;
}

.grid-2, .grid-3, .grid-4 {
grid-template-columns: 1fr;
}

.nav-links-demo {
flex-direction: column;
}

.empty-state {
padding: 40px 20px;
}

.step-connector {
width: 20px;
margin: 0 5px 20px;
}

.mobile-nav-drawer {
width: 100%;
}

.mobile-search-container {
max-width: 100%;
}
}
```

**Mobile Preview (≤ 576px)**

This layout stacks all elements vertically. Navigation becomes vertical, and font sizes/padding are minimized for mobile screens.

Item 1

Item 2

## Print View Guidelines

```
@media print {
body {
background: white;
color: black;
}

.guide-container {
padding: 0;
max-width: 100%;
}

.section, .card, .component-demo {
box-shadow: none;
border: none;
}

.btn, .nav-demo, .mobile-nav, .toast, .modal, .chart-container {
display: none !important;
}

.code-block {
background: #fff;
color: #000;
border: 1px solid #000;
}
}
```

**Print Preview**

For printing, non-essential components like buttons and charts are hidden. Styles are flattened for clarity.

**Print-Friendly Content Block**

This is how a standard section appears when printed. UI elements are simplified and colors muted.

## 3.1 Responsive Design Addendum

### Breakpoint Reference

| Device | Breakpoint | Usage |
|---|---|---|
| Desktop | ≥ 1025px | Full layout, multi-column grids |
| Tablet | 769px – 1024px | Condensed layout, 2-column grids |
| Mobile | ≤ 768px | Stacked layout, simplified navigation |
| Small Mobile | ≤ 480px | Compact elements, single column UI |
| Print | @media print | Minimal styling, optimized for paper |

### Responsive Grid Behavior

```
.grid { display: grid; gap: 20px; }
.grid-2 { grid-template-columns: repeat(auto-fit, minmax(250px, 1fr)); }
.grid-3 { grid-template-columns: repeat(auto-fit, minmax(200px, 1fr)); }
.grid-4 { grid-template-columns: repeat(auto-fit, minmax(150px, 1fr)); }
```

Grids automatically reflow based on screen size. Minimum widths ensure readability on all devices.

## Fluid Typography

```
body {
font-size: clamp(14px, 2vw, 16px);
}

h1 {
font-size: clamp(24px, 5vw, 38px);
}
```

Font sizes scale responsively between breakpoints using `clamp()` for modern flexibility.

## Touch Target Guidelines

All interactive elements (buttons, links, form inputs) should maintain a minimum touch area of **48x48px** to comply with WCAG standards and support mobile accessibility.

## Responsive Navigation Behavior

- At ≤ 768px, navigation collapses into a hamburger drawer
- Submenus are expandable with touch-friendly spacing
- Drawer disables background scroll when open
- Touch-friendly close buttons and hit zones included

## Print-Friendly Adjustments

```
@media print {
.btn, .toast, .modal, .nav-demo, .chart-container {
display: none !important;
}

.section, .card {
box-shadow: none;
border: 1px solid #ccc;
}

body {
background: white;
color: black;
}
```

```
}
```

Print mode removes interactive elements and flattens colors for legibility on paper.

### Utility Classes (Optional)

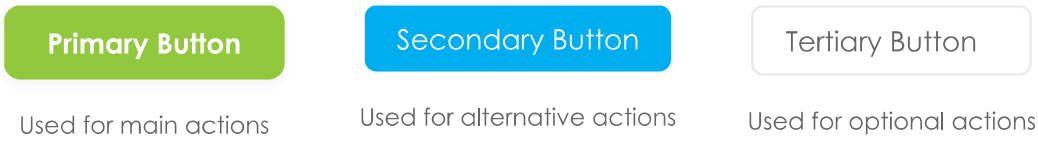

```
.hide-mobile { display: block; }
.hide-desktop { display: none; }

@media (max-width: 768px) {
.hide-mobile { display: none; }
.hide-desktop { display: block; }
}
```

Use utility classes to selectively show or hide content depending on device width.

## 4. UI Components

### Buttons

Used for main actions

Used for alternative actions

Used for optional actions

## Hyperlink Styles

### Default

This is a default link

### Hover

This is a hover state

### Visited

This is a visited link

## 5. Tables

| Product Name | Type | Status | Actions |
| --- | --- | --- | --- |
| Sample Product 1 | Certificate | ACTIVE | |
| Sample Product 2 | Document | PENDING | |
| Sample Product 3 | Report | INACTIVE | |

## 6. Tags

### Tag Types

Internal External

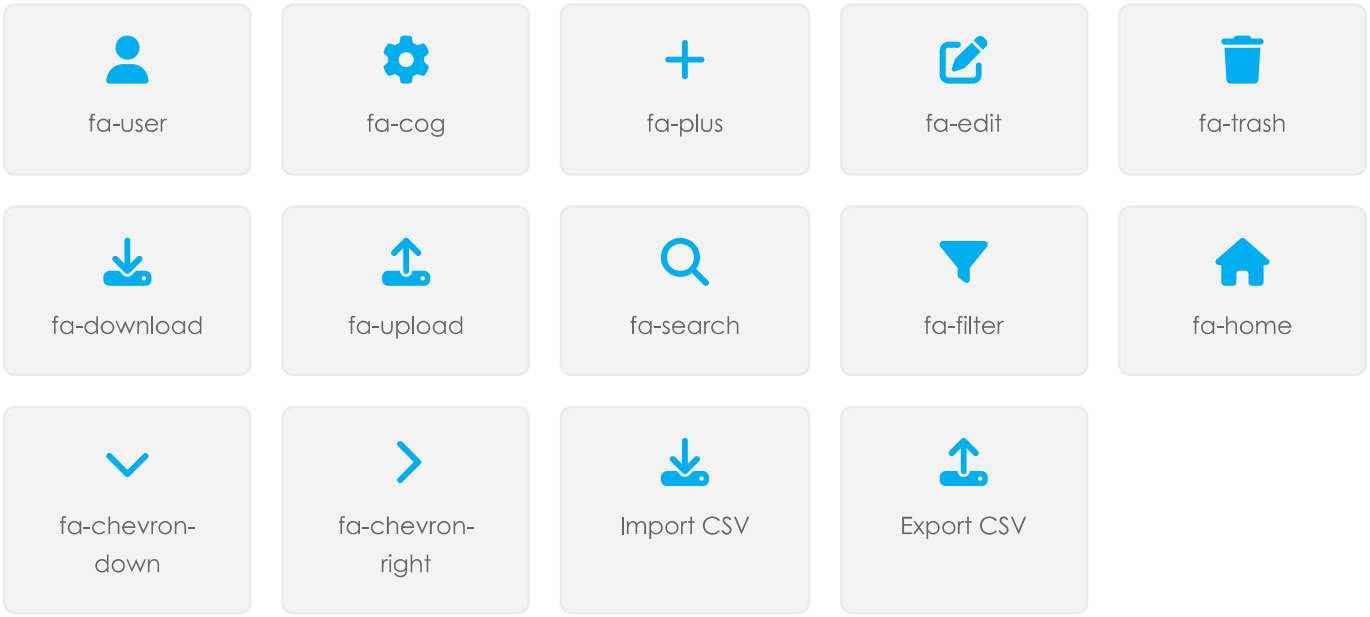

```
/* Badge styles */
.badge {
padding: 4px 10px;
border-radius: 6px;
font-size: 12px;
font-weight: 500;
text-transform: uppercase;
}

/* Tag type styles */
.tag-type {
padding: 4px 8px;
border-radius: 4px;
font-size: 12px;
font-weight: 500;
```

```
}
```

## 7. Iconography

### Font Awesome 6.4.0 Icons

```
/* Icon usage guidelines */
- Size: typically 12-20px, aligned with text
- Color: inherit from parent or use theme colors
- Spacing: 8px margin from adjacent text
- Usage: navigation, buttons, user dropdown, breadcrumbs
```

## 8. Toast Notifications

## Basic Toast Types

Profile updated successfully

Changes saved successfully

Failed to save changes

Validation error: Email field is required

## Warning & Info Toasts

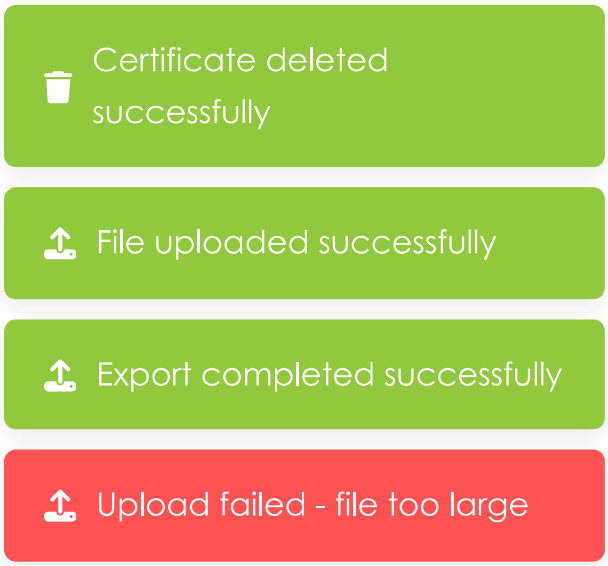

Session is about to expire

You have unsaved changes

New version available

Export started. We'll notify you when it's ready to download

## Action-Specific Toasts

## Usage Guidelines

### Success Toasts

Use for successful operations: save, delete, upload, export completion

### Error Toasts

Use for failed operations, validation errors, network issues

### Warning Toasts

Use for session expiry, unsaved changes, important notices

### Info Toasts

Use for system updates, export notifications, general information

# 9. Responsive Design

## Breakpoints

**992px**
Tablet optimizations

**768px**
Mobile nav drawer

**576px**
Stack layout, reduced spacing

```
/* Responsive breakpoints */
@media (max-width: 992px) { /* Tablet styles */ }
@media (max-width: 768px) { /* Mobile nav drawer */ }
@media (max-width: 576px) { /* Mobile stack layout */ }
```

## Mobile Navigation Preview

### Mobile Navigation

Mobile Menu Toggle

**Mobile Search Pattern**

Search certificates...

## Mobile Navigation Guidelines

### Hamburger Menu

### Drawer Behavior

Use standard 3-line hamburger icon. Animate to X when drawer is open.

Slide in from left. Include overlay backdrop. Close on backdrop tap or X button.

### Touch Targets

Minimum 44px height for all touch targets. Adequate spacing between links.

### Search Integration

Include search bar in mobile header. Add filter button for advanced options.

## 9.1 Responsive Behavior Examples

### Mobile-Friendly Table Conversion

On smaller screens, traditional row-based tables convert to vertical card-style layouts using `data-label` attributes for semantic clarity.

| Certificate ID | Company | Status | Expires |
|---|---|---|---|
| GC-120034 | EcoBuild Inc. | Active | 2025-12-31 |
| GC-120035 | SolarFrame | Pending | 2025-10-15 |

### Action Button Responsiveness

Add Edit Delete

Buttons wrap and stack vertically under 576px width for better touch accessibility.

## Mobile Modal Behavior

**Mobile Modal Adaptation (≤768px)**

Modals automatically resize and scroll vertically when opened on narrow viewports.

### Edit Certificate

Mobile-friendly modal with padded content and responsive width.

Save

## Certificate Card Grid Collapse

**GC-120034**
**Company:** EcoBuild Inc.
**Status:** Active

**GC-120035**
**Company:** SolarFrame
**Status:** Pending

Cards auto-collapse into a single column at mobile breakpoints (≤768px).

## Optional Print Tips

To optimize Section 9 tables and cards for printing, use `page-break-inside: avoid;` on rows and cards. Hide buttons and shadows in print mode using `@media print` rules.

# 10. Management Sections

# Product Management

## Product Management

Import Export + Add New

## 11. Accessibility & ADA Compliance

### Keyboard Navigation

#### Focus Management

All interactive elements are keyboard accessible with visible focus indicators

#### Tab Sequence

Logical tab order through navigation, forms, and content areas

### Contrast Standards

#### WCAG 2.1 AA Compliance

All text and interactive elements meet minimum contrast ratios of 4.5:1

#### Color Independence

Information is not conveyed through color alone

### Screen Reader Support

```
/* Recommended ARIA attributes */
aria-expanded="false"    /* For dropdowns */
aria-haspopup="true"     /* For menu triggers */
aria-label="..."         /* For icon buttons */
role="button"            /* For clickable elements */
```

## 12. Motion & Interaction

### Transition Standards

```
/* Standard transitions */
transition: all 0.3s ease;

/* Dropdown animations */
transform: translateY(10px);
opacity: 0;
visibility: hidden;

/* Active state */
transform: translateY(0);
opacity: 1;
visibility: visible;
```

### User Interactions

#### Hover Effects

#### Focus States

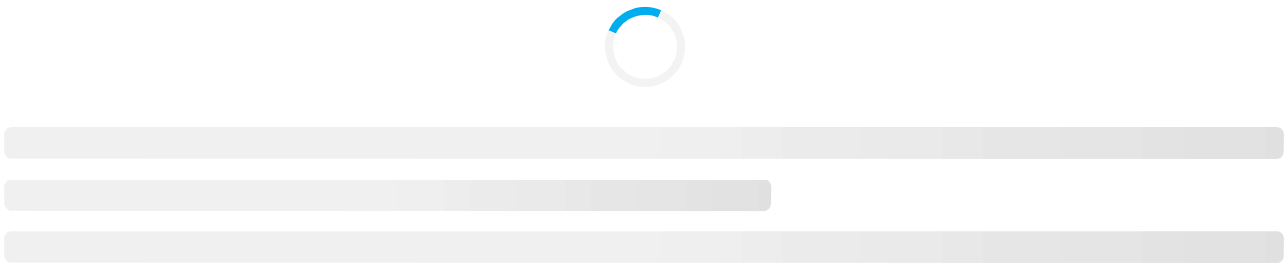

Smooth color transitions and subtle elevation changes

Blue outline with subtle shadow for keyboard navigation

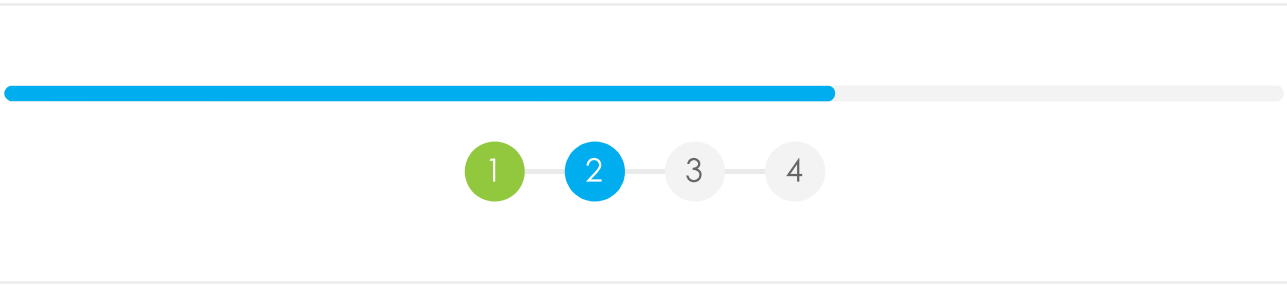

## 13. Advanced Components

### Modal Dialogs

### Loading States

### Progress Indicators

## 14. Data Visualization

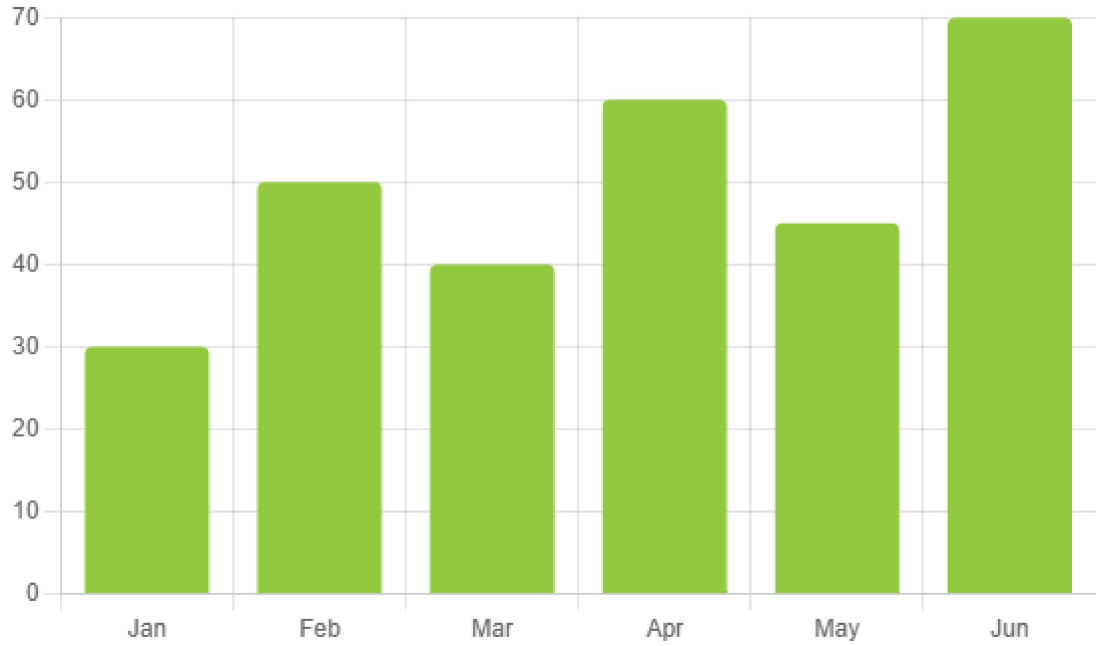

## Sample Certificate Data (2 Columns x 10 Rows)

**Source Data Table**

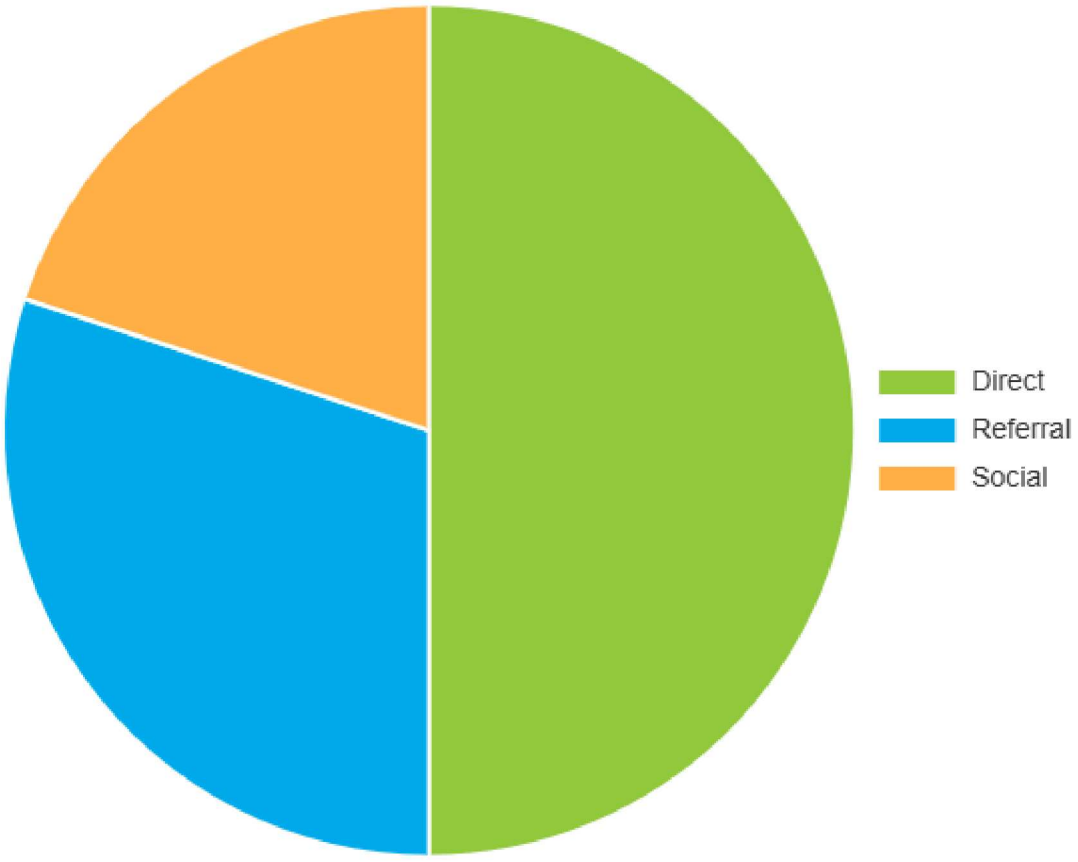

| Certificate Type | Count |
|---|---|
| ISO 9001 | 245 |
| ISO 14001 | 189 |
| FSC Chain of Custody | 156 |
| ENERGY STAR | 134 |
| LEED | 98 |
| GREENGUARD | 87 |
| Cradle to Cradle | 76 |
| Green Seal | 65 |
| EPEAT | 54 |
| UL Environment | 43 |
