Baseline Period: January 2017 - December 2017

Evaluation Period: September 2022 - August 2023

Compliant with GreenCircle Certified Sustainability Facts Certification Standard Audit Plan 10.2024

1. Third-party audited by an outside organization.
2. GreenCircle verified the applicable gluten-free certifications. Not applicable to lunch kit, salami, pastry products, or egg bite products.
3. Raised without the use of added hormones or growth promotants, including ractopamine. All pork in Canada is raised without the use of added hormones.
4. Except for paprika (in Calabrese Salami, pepperoni, and sausage in egg bites), non-meat kit components (pizza shells, cheese, toasted rounds, crackers, and cookies), and non-meat egg bite ingredients (milk, cheddar and parmesan cheeses, modified corn starch, and canola oil).
5. For market pigs.
6. Based on advanced open housing structure.
7. Like most pigs in North America.
8. At the Brandon processing plant.
9. GreenCircle verified that Maple Leaf Foods employs staff who are certified by the Professional Animal Auditor Certification Organization (PAACO).
10. Applicable to Scope 1, Scope 2, and a portion of Scope 3 emissions from the Greenfield brand.
11. Intensity reduction benchmarked to metric tonnes of production (finished product).
12. Applicable to Greenfield production facilities.
13. Includes both hazardous and non-hazardous material streams.
14. GreenCircle Verification excludes Laval (Viau) and Montreal, Quebec facilities.
15. Applicable to central lab.
16. GreenCircle verified a sample of barns.
17. Applicable to all of Maple Leaf Foods for January 2025 - December 2025.
